

HELPING PETS *Stay Healthy*

Preventive Care

Get cash back for routine services that help keep your pet healthy with preventive care coverage.

What are the benefits of preventive care?

Things like vaccines, flea/heartworm prevention, and dental cleanings can help keep your pet from getting sick. Other services like regular check-ups and wellness screenings let your veterinarian detect health problems in the early stages, which can mean a better outcome for your pet.

Why consider this coverage?

If you're already paying for your pet's preventive care, why not get cash back for it? If you haven't been staying on top of it, this coverage can prompt you to make those appointments so you can get your reimbursements.

How does it work?

You can choose one of our preventive care coverage options. Each one has a list of covered services, and each service has a set maximum annual benefit amount. There's no deductible or co-insurance amount. These benefits are available as soon as your plan is effective.
